ABOUT

The KeyCenter™ is a key communication hub and data center strategically located in Miami, FL, where the crossroads of many fiber optic cables connect North America, Europe and Latin America.

The KeyCenter™ offers direct connection to our global Tier-1 backbone and cable systems spanning more than 65,000 km around the globe. This network, owned by Telefónica, has 39 PoPs in the Americas, 35 PoPs in Europe and 4 PoPs in Africa; with the lowest latency of communications. In addition, the KeyCenter™ is connected to multiple Tier 1 providers to ensure world class, redundant global network connectivity.

The Miami KeyCenter™ has been designed to meet the highest standards of quality and reliability. It has a total area of 187,511 sq ft and is compliant with all certifications to keep your IT infrastructure and data safe.

In addition, the highest uptime SLAs and performance level guarantees to provide enterprises with the power to transform and innovate with confidence.

DATA CENTER SERVICES

From the KeyCenter™ Telefónica Business Solutions USA provides world class integrated Telecom and IT solutions to USA based multinational companies in Latin America and Europe.

Our resilient features and world class 24/7/365 global support provide enhanced security, redundancy and connectivity that ensure greater performance and improved control for all your mission-critical and I/O-intensive applications.

For all the colocation features and elements, Telefónica USA provides a world-class environment designed to protect and maximize performance of the IT equipment.

In addition to colocation services, Telefónica USA provides world class integrated managed Telecom and IT solutions such as network connectivity, security, backup and storage, database services, multicloud ecosystems, interconnection services and much more to some of the world’s top multinationals and corporations.
"Telefónica’s communications have the lowest latency to Latin America."

The best public and private cloud offering. Open Cloud, VDC, V-Hosting. Your choice!

"No communication, power, water or cooling outages have ever happened in the facilities of the KeyCenter™, since its opening in 2001"

"The KeyCenter™ location is a perfect choice for the IT consolidation and DR of your company"
